SKILLS

- **Languages:** C++, C, Java, Python, HTML, CSS, SQL
- **Frameworks:** NumPy, Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn, Streamlit
- **Tools/Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Anaconda, Kaggle, Excel, Power BI
- **Soft Skills:** Brainstorming, Team Collaboration, Adaptability, Creativity, Networking

PROJECTS

- **Road-Accident Dashboards** | [GitHub](#) May 2025
 - Evaluated a 4 years road accident dataset (12,316 records, 32 features) to uncover insights on accident severity driver experience, road conditions, light conditions and casualty trends.
 - Used Excel (Power Query, PivotTables, formulas) for cleaning and transforming accident data and created An analytical reporting view with automated charts and filters to visualize key safety insights.
 - Designed an interactive Excel dashboard with automated filtering and visualizations, improving analysis speed by 40% and enabling data-driven road safety insights.**Tech:** Microsoft Excel, Pivot Tables, Power Query, Charts, Slicers
- **Data-Driven Predictions for Pradhan Mantri Fasal Bima Yojana (PMFBY)** | [GitHub](#) May 2025
 - Analyzed a 4 years road accident dataset (12,316 records, 32 features) to uncover insights on accident severity driver experience, road conditions, light conditions and casualty trends.
 - Cleaned and transformed raw data by handling missing values, removing duplicates and correcting inconsistencies, improving data quality by 25% and ensuring reliable inputs for analysis and modeling.
 - Performed exploratory data analysis using 10+ statistical and visualization techniques and engineered features to create a model-ready dataset, uncovering regional adoption gaps and financial imbalances to support decision-making**Tech:** Microsoft Excel, Python, Pandas, NumPy, Matplotlib, Seaborn
- **Food Delivery Market Intelligence & Revenue Analysis Dashboard** | [GitHub](#) November 2025
 - Engineered an end-to-end data pipeline on a 6,000+ row, 20-feature dataset using Python and Power Query, improving data quality by 30% through missing value handling, duplicate removal and data standardization.
 - Developed an interactive Power BI dashboard with advanced DAX measures, tracking key KPIs (revenue, orders, customers, delivery time) and reducing manual reporting effort by 40% through automated, real-time insights.
 - Derived insights multiple brands and customer segments to identify top 3 brands contributing 60% of revenue and uncover patterns in payments, demographics and order delays for business optimization.**Tech:** Power BI, DAX, Power Query

TRAINING

- **Lovely Professional University (LPU)** June 2025 – July 2025
Machine Learning Intern / Trainee
 - Built and evaluated multiple machine learning models using structured datasets, applying preprocessing, feature engineering, and model selection techniques to improve predictive performance.
 - Deployed interactive Streamlit-based ML applications for real-time predictions, enabling user-driven inputs and improving decision-making efficiency.
 - Performed model evaluation and interpretability using metrics and SHAP visualizations, enhancing transparency and understanding of feature impact on predictions.

CERTIFICATES

- Cloud Computing Certification | (NPTEL) – IIT Kharagpur | [Link](#) October 2025
- Java Programming | *iamneo platform* | [Link](#) May 2025
- Professional Soft Skills Learning Pathway | *LinkedIn Learning* | [Link](#) October 2023

ACHIEVEMENTS

- Achieved a rating of 1500+ on LeetCode.
- Solved 200+ Data Structures and Algorithms (DSA) problems across platforms like LeetCode and GeeksforGeeks.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.54 Since August 2023
- **D C Lewis Memorial School** Renukoot, Sonbhadra
Intermediate; Percentage: 70.50% April 2022 - March 2023
- **D C Lewis Memorial School** Renukoot, Sonbhadra
Matriculation; Percentage: 83% April 2020 - March 2021
